Henry Howe, formerly of this city, recently married Mr. Edward Sheehan, mentioned public record. And every map to which we leverage. in a Times-Star special from New Haven, refer is based on this state of things. as an "unprepossessing mechanic," and there is much excitement over the affair. The bridegroom complains that his fatherin-law kicked him out of the house. The parties are not now living together.

The Minnesota State house at St. Paul is crumbling and falling in pieces and Min-change, so far as the writer can see, neapolis is now offering big money and not be of benefit to the public, or add one making a great effort to have a new State house built within its corporation limits. The proper thing to do is to put the new capitol half way between the two cities. To the Editor of the Republic: It would, in that position, make the twain one-and one of the finest and most pregressive cities in the world.

Mr. Joseph Leon Gobellie, who has been for Women, recently addressed to teachers, proval of a large majority of our people, ers, professional men and students, a This bill, however, does not seem to meet "Poor old Buckskin!" said the girl, wood-carving would be of incalculable of how many offices can be created to feed you when you don't want to be saddied value to those whose nerves are on a perthe hungry office-s-ekers.

It will be noticed that not a single office petual strain in one direction. No doubt is abolished, but three or four new ones and Saddle! while she three on the harother sorts of physical exercise of a created. We are to have a mayor, as now. of the individual, would be equally useful. a marshal, unless the office is abolished by The wielding of an axe, vigorously, at repeated intervals, affords the sort of relief under discussion to Mr. Giadstone, while ers-on, all of whom are to be paid good, to morrow: I shall take her a long, long Hon. Samuel Shellabarger, one of the most round salaries, fixed by council. And run to-night and show her that the mare intellectual men in America, rests his brain what are all these for? Simply who can work, and won't work, must be by shoving a plane in the basement of his by shoving a plane in the basement of his residence. Other men who do headwork Certainly this is doubtful economy. If the A coyote trotted to the to find help in splitting wood, others in walking. The suggestions in the following paragon, from Mr. Gobeille's circular, apply ground for objection, but there's the rub equally well to public school children as to professional men and students in any department of brain work: Your work is entirely mental. Because

you do no manual labor other than that which is done with the pen, the sensitive nerves are strained to their elastic limit, dle. As a result you are getting each year more weary of your environment and more In a short time you will find yoursel drifting into cynical and pessimistic lines of aps further on you will make those about ou less happy. There is a cause for all his, a simple reason. It is the unequal vertently, no doubt, crept into your their fluid but of strain upon the nerve centers:

Taport. I did not say, as reported, that the unequal were the say, as well as the unequal as the unequal of the say. haps further on you will make those about distribution of strain upon the nervectures, impressions are invited and immediately transmitted, while that part of the week days, were in the interest of prohibition." On the contrary being a radical, 1 tion." of the fact that only one sense—viz. that of touch—is positive, outreaching and active, and the highest perfection of that sense is in the hand, which, being endowed with the sixth or muscular sense, placks the sweet smelling flower for the pleasure of the nostrils or gathers the spicy berry to make any division between my religion and politics. My address was not what it was by authority of the W. C. handiwork, and the ear is ravished by the touch of the tingers across the harp strings. All but touch are passive senses; the hand did not hear me, for if you were quite in ministers to them, the blind see with their fingers and the dumb talk. If, then, manual training is neglected the senses suffer, one friendly appreciative republican listener the mind essence is soured; the world, your to my paper, which said nothing unkind world, is blighted. about republicans.

Some school children get much physical exercise on the playground, but many get none. What is needed is that the eye and the hand may be trained in connection with the mind, so that the outline acquired shall To the Editor of the Republic: be symmetrical. At the same time, while Six-I wish, through the columns of your the hand is at work the muscles are exer- paper, to deny the statements made arainst

Mr. George W. Cable, the genial novelist and lecturer, is promoting the and ormation of what he calls "Home Culture Clubs." They are designed to have about six members each and to represent about half that number of homes. Meetings may be held weekly, "from house to house," and public entertainments given at stated periods. A person who has the capacity to inspire should be chosen for the leader of the club. Six clubs after this style already exist in Northampton, Mass., where Mr. Cable lives. In no quarter are

'culture clubs" more needed than social circles. They could be productive of en-93 SOUTH LIMESTONE ST. tertainment of a very high and satisfactory sort, and they would greatly stimulate the mind, and, as a matter of course, promote intelligence very effectively. Mr. Cable is only supplementing the Chautauqua and Teacher's Circle work, and doing his part toward opening avenues for a broader pop-

THE HEART'S ARITHMETIC. Though like the sacred lights above May whise the poet's golden name, One little hour of simple love Castweighs a million years of fame. Henry W. Austin in Southern Bivotae.

THE BUCKSKIN MARE.

It was 12, midnight, when Private O'Rourke went off sentry duty and borowed a chew of tobacco from his relief, Private Fenton.

There's some divil's work afut the night John," he remarked, positively, as he grounded his gun and began to strip off his white cotton gloves. He looked over the prairie to a point where the moonlight became silver mist, and shook his head at the yeiping chorus which came from beyond the limit of his vision. The air was so dry and the night other wise so still that the sounds might have traveled a mile or more before the vibration of the mist on the other side of the wildly galloping mare, and apparently without effort kept ions fell upon the tympanums at the gate

Manny's the night I've heard the ka-yow-tee's howl, but niver a wance have I heard thim sing so fortissimo and all toand are stripping ets bones. At 9 et wuz wan here, and wan in the sage brush, and wan 'way down in the canyon. At 10 they seemed to get thicker and closer to gither, and louder, like bounds on a trail. Thin, all at wance, I heard a scream-et wuz a harse, I lay my hat et wuz a harse that sere med-and from that minute they've been howling like banshees. Got pity the baste they've killed, and et's sorra a taste will be left of him in the marnin' but bones, and it's bad luck to the ka-yow-tee that comes in rache of my gun, when I'm on duty or off—I'll give give hem a slug, sure as my name's O'Rourke, I'll give hem a slug."

'Oh, come off, Phelim, and let the coy-

"Ay! But that makes me remimber.

The subject was too large for O'Rourke's of the fullness of his mind that the mouth refused to speak. The evidences of the girl's tenderness of heart were so many that it was hard to select a single one from the embarrassment of riches.

But it was not her human kindliness, nor her beauty of face, nor yet her Juno O'Rourke's other god and making him fall down and worship ber. It was what he called her "divilishness" that made proposed change on the prairie with her horse and her two

Certain democrats are pratting sweetly about Cleveland and Carlisle. Republicans spirit of change, which carries with it no cloth cap bound securely to her head; her possy.

Benefits of Plain Living. A lawyer by profession, but a judge in one of the highest courts in New York for

twenty-three years, is noted for methodi-cal habits, legal actimen and perfect in-tegrity. Long past 60, erect and vigerous as a man of 40, he cannot count a day lost by sickness in a quarter of a century. At his post as regularly as the sun rises, after adjournment he writes out the opinions of the court, which already fills several large volumes. No man in the city is more wor by of the universal regard which he long since secured. Having long known Judge Dank, I once asked him the secret of his power.

"Plain living," he replied, "has been my salvation. I was a nervous youth I have since followed inflexible. After a plain but substantial breakfast, I loiter about for an hour or two and then walk to the court house, or a distance equithree miles or more. Having previous Armed | had the room well ventilated I stay i the building, occupied, except an hour at aoon, with my fudicial duties. The other judges take a hearty lunch; I cat nothing. At 5 o'clock I am through for the day, and walk up town again. Rain or shine, inflaming condiments, no pudding, pie, ice cream or custards, and drink no wine. I have a sense of comfort but not of replegest my food, caten twice a day, no more

can induce me to change my habits. Even

In the first place, I have very little respect for any country, whether it is my yn or any other man's, which has not the diplomacy or the dignity to settle its quarrels without going out like two gangs of street boys and fighting it out.

In the second place, I fail to see the no bility of half of the causes of war or the nobility of spirit that resents with a hired brother's blood a tancied insult. I also fail to see the glory of decimating the male population of two countries, de stroying commerce, business and agricult-ure, to say nothing of destroying the national treasuries and taxing an over-taxed people unable to carn to the very last cent, simply to settle some little ones
